New NHW Signs For Findon

West Sussex Fire & Rescue Service - Biker Down workshop.

West Sussex Fire & Rescue Service has announced the date for their upcoming Biker Down workshop. The sessions are designed to keep motorcyclists safe on the roads and are delivered by firefighters who ride motorbikes in their spare time. The workshops include training on scene management following a collision, first aid (including helmet removal) and the science of being seen.

The date currently confirmed **Shoreham Fire Station: 10 June 2022**

Last year 110 motorcyclists were killed or seriously injured on the roads of West Sussex. However, action taken in the early moments of a collision involving a biker is essential to minimise injuries.

Biker Down instructor, Richard Poole, said: "Hopefully most people reading this will never have the misfortune of being first on scene at a collision involving a biker. However, it's so important that all road users are prepared and know what to do, should they ever come across an incident that requires immediate intervention.

"The knowledge you gain from attending a session isn't just applicable for bikers, but instead it's useful for all road users – whether you drive a car, bike or lorry. So, no matter how you travel, I would encourage you to come along to one of our free sessions and gain valuable skills which could just save a life one day."

If you would like to attend one of the above sessions, or would like to be notified when dates for additional workshops are confirmed, please go to <https://www.eventbrite.co.uk/e/biker-down-waitlist-tickets-328032984487>
